

Chemelco

## Household Surfactant

Version March 2019

### **Anionics**

Sulphonic Acid  
Sodium Alkyl Benzene Sulphonate  
Sodium Lauryl Ether Sulphate  
Sodium Lauryl Sulphate

### **Non-Ionics**

Ethoxy Brite® FAE 7  
Ethoxy Brite® FAE 9  
Ethoxy Brite® 013-9  
Ethoxy Brite® E7  
Amine Oxides

### **Acids**

Citric Acid  
Acetic Acid  
Hydrochloric Acid  
Sulphuric Acid  
Phosphoric Acid  
Nitric Acid  
Cresylic Acid

### **Alkalis**

Caustic Soda Pearls  
Caustic Soda Liquid  
Soda Ash Dense  
Sodium Sulphate Anhydrous  
Calcium Oxide  
Borax Pentahydrate  
Pumice Powder

### **Quarternary Ammonium Compounds**

Benzalkonium Chloride  
Ammonium Chloride Quats

### **Foaming agents**

Coco Diethanolamide (Coco Brite® D)  
Cocoamide Betaine (Coco Brite® B)  
Coco Monoethanolamide (Coco Brite® M)

### **Thickeners**

Visco Brite® 633 – thickener for scrubbing creams and CSP solutions  
Visco Brite® 635 – similar to the VB 633 but with thixotropic properties  
Visco Brite® 637 – cost effective thickener for LDW/LLD  
Visco Brite® 1588 – thickener for ester quat/fabric softeners and acetic raw materials  
Bermocol EM 7000 FQ – typical versatile water thickener for ester quat/ fabric softeners

### **Solvents**

Ammonia  
Isopropyl Alcohol  
Butyl Glycol  
Pine Oil 85%  
Triethanolamine  
Monoethylene glycol  
Toluene  
D-40  
Cetyl Alcohol  
Xylene

### **Aldehyde**

Glydant  
Glydant Plus  
Formaldehyde

### **Silicones**

Silicone oils  
Brite® Silicone E181 – silicone emulsion 60%

## Household Surfactant

Version March 2019

### **Phosphates**

Trisodium Phosphate  
Tetra Potassium Pyrophosphate

### **Chelating agents**

EDTA -NA  
EDTA Liquid

### **Perfumes**

Several

### **Halogens**

Calcium Hypochlorite

### **Enzymes**

Several types supplied by DuPont

### **Others**

Sodium Sulphite Anhydrous
